## STEARMAN HISTORY

Lloyd Stearman Field, aka Benton Airpark, is just outside of Benton, Kansas.

The Stearman bi-plane is one of the most mass-produced airplanes in U.S. history. It was used as a trainer for WWII pilots. Years later, this iconic plane would be immortalized by the famous Red Baron Pizza Company.

You will often see this beautiful craft (and many other marvels of aviation) at the Stearman Airfield Bar & Grill.

## DID YOU KNOW?

*The Gypsy Moths* is a 1969 American drama, based on the novel of the same name by James Drought and directed by John Frankenheimer. The film is a story of three barnstorming skydivers and their effect on a Midwestern American town, focusing on the differences in values between the town folk and the hard-living skydivers.

*The Gypsy Moths* starred Burt Lancaster and Deborah Kerr. The film also features Gene Hackman, (fresh from his role in *Bonnie and Clyde* - 1967). Kerr had worked previously with Lancaster in *From Here to Eternity* (1953) and *Separate Tables* (1958).

These actors would all eventually be nominated for Academy Awards, in their careers. Part of *The Gypsy Moths* was actually filmed at Benton Airpark, in Benton, Kansas. Stearman Airfield Bar & Grill sits on an active airstrip and celebrates aviation and the lives of those who dedicate themselves to defying gravity, every day.
